Forecast for Sunday 07 Feb 2021

Weather: Cloudy and cold start, with any overnight snow clearing south. Frozen at all levels, with a significant wind chill. Some brighter spells developing, especially across southwestern hills. Many routes staying dry, although further isolated snow showers are possible. These remaining mostly light, however.

Chance of cloud free mountain/hill tops above 600m: 30%, best chances in the southwest during the afternoon and evening.

Visibility: Often poor or very poor visibility above 600m, where cloud obscures tops. Chance of falling to near zero in brief blizzard conditions, in any heavier showers. More frequent cloud-breaks in the southwest, and very good to excellent views where these occur and also at lower levels.

Meteorologist's View

A very cold day, with a severe chill effect and frozen routes. Full winter clothing along with windproof and warm layers essential. Conditions could also deteriorate rapidly with any snow showers that move through.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Sun 07 Feb 2021	1.6mm	3.6mm	11.6mm

Forecast for Monday 08 Feb 2021

Weather: Mainly cloudy and dry, but a chance of occasional showers spreading in from the west, especially across northeastern parts. These could also be heavy at times, with a risk of brief blizzard conditions. Best of any clearer or sunnier spells in the west. Remaining very cold with a severe chill.

Maximum wind: East 25-30mph gusting 40-50mph

Chance of cloud free mountain/hill tops above 600m: 40%, best chances in the southwest.

Visibility: Very poor amongst cloud above 600m, with a chance of falling to near zero with blizzard conditions in any snow showers. Cloud also falling to around 400m when heavier showers occur. Away from showers, and outside of cloud some very good views likely with excellent air clarity.

Temperature: **Valleys:** Minus 3 Celsius rising to Plus 1 Celsius, but staying below Zero Celsius in sheltered spots.
At 600m: Minus 6 C
Freezing level: At valley floors.
